Over the last 30 years, a lot of achievements

Sustainable product policy & ecodesign

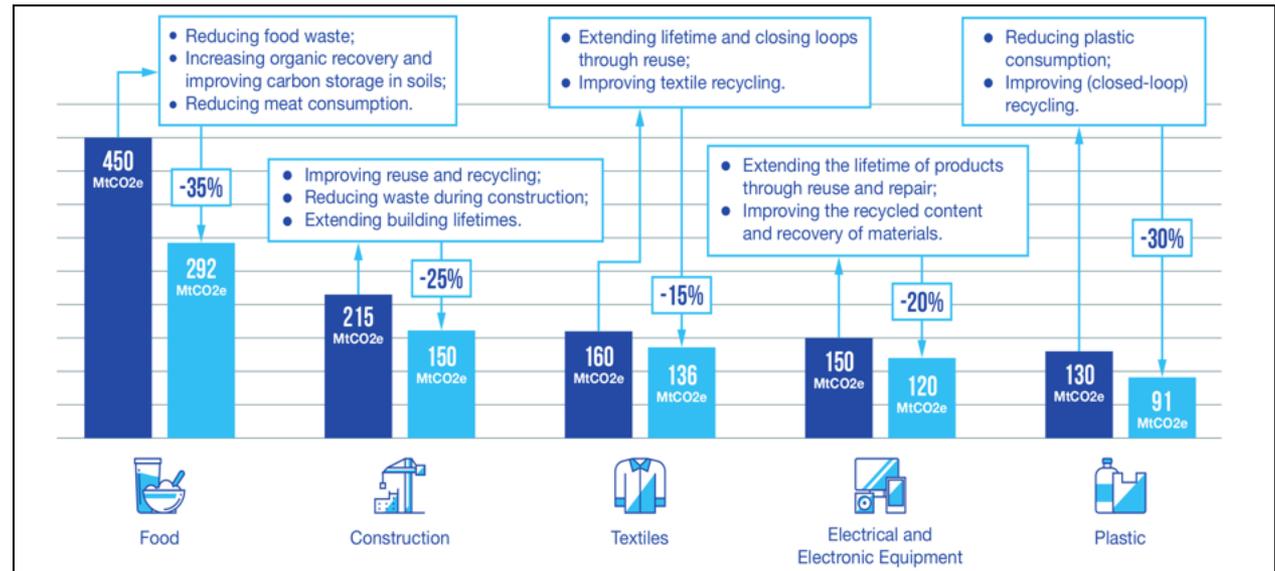

Towards sustainable consumption and production

2008

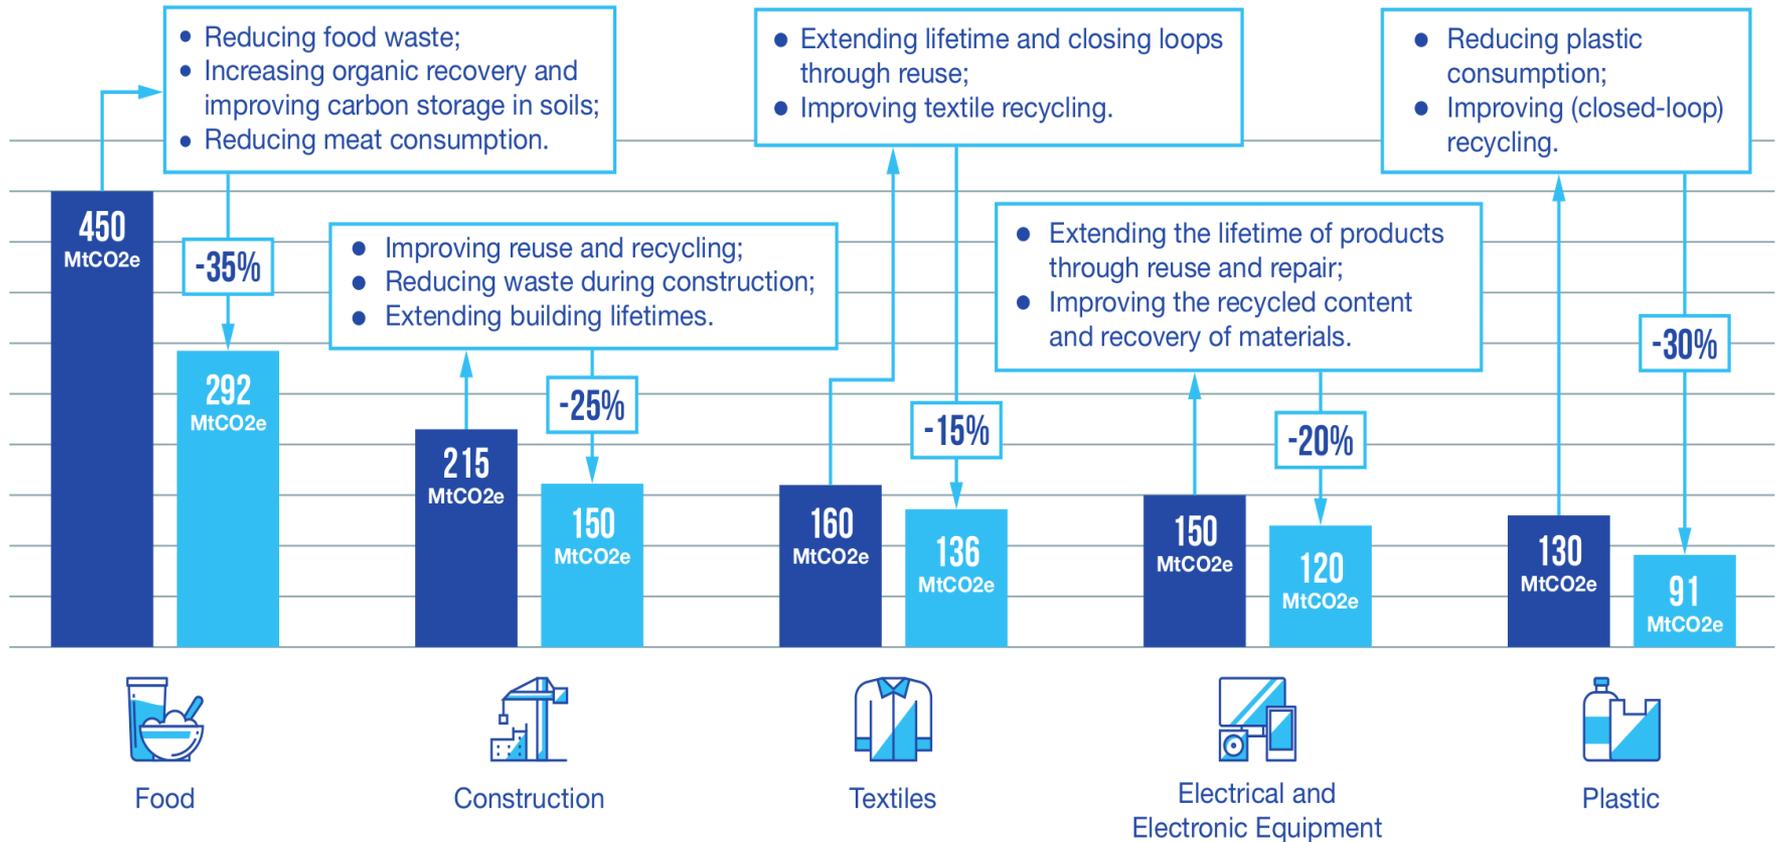

de 600kg/hbt/an
à 500kg/hbt/an
de déchets municipaux

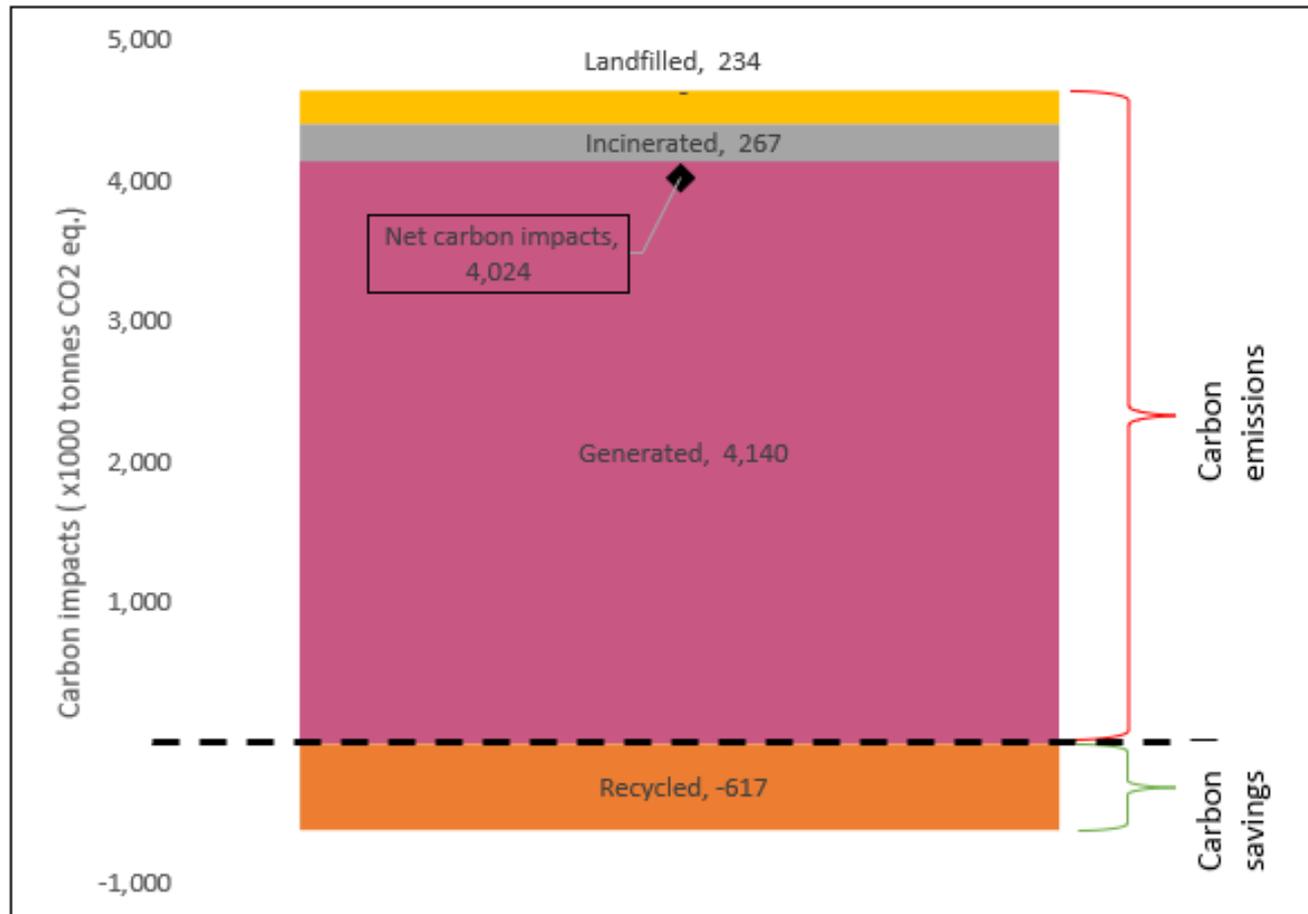

2019

Priority sectors

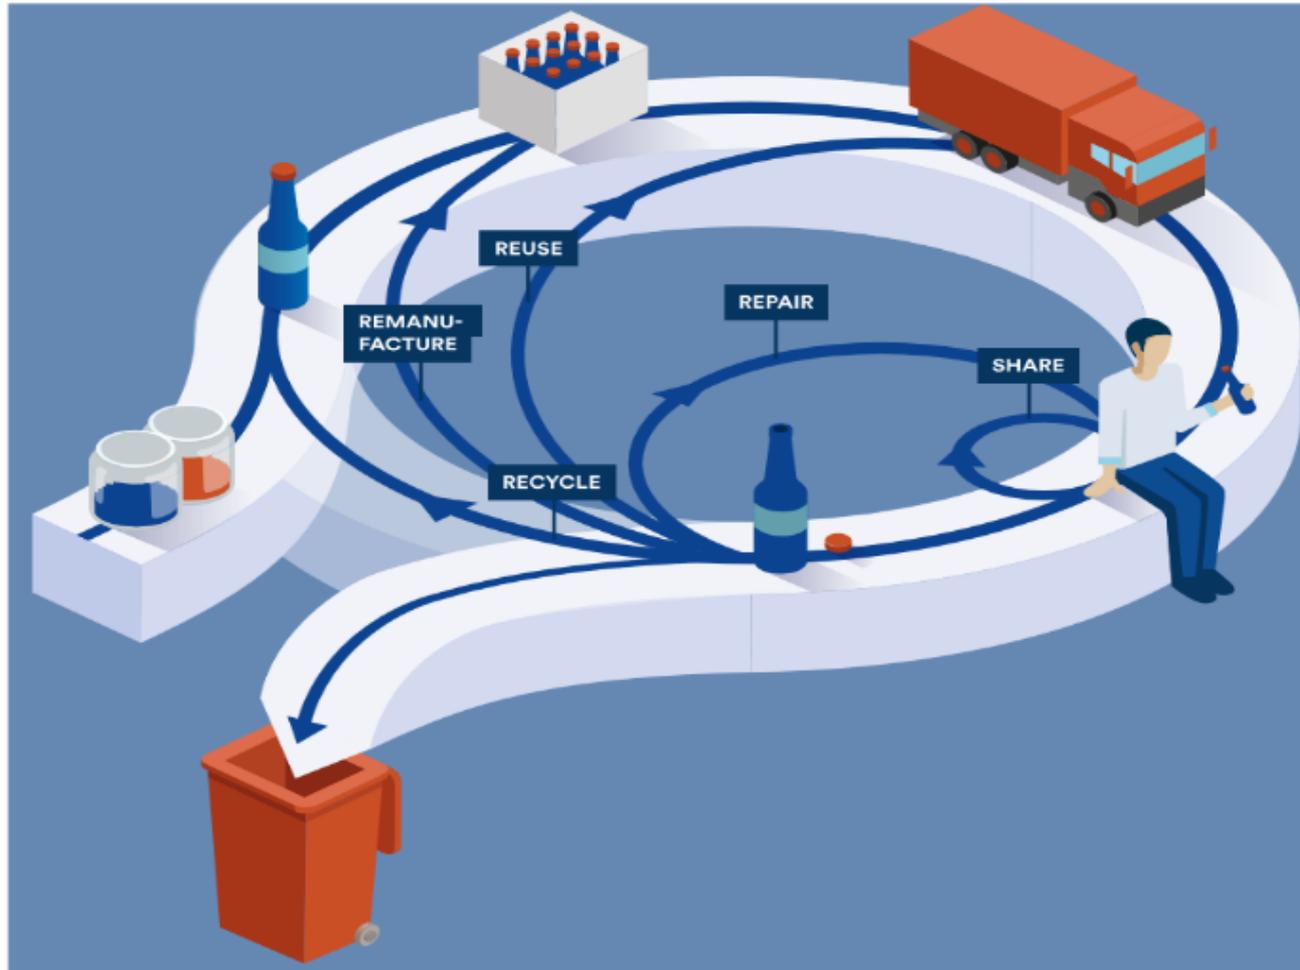

The need of prevention targets

Source: Applying the Carbon Metric International to local level - The example of Pays de la Loire, ACR+/ZWS, 2020

H2025/2030: towards sustainable products

EPR principle which is an application of the “polluter pays principle” must be the driver, supported by a diversity of measures including bans of toxic content, right to repair, to reuse...

Thank you!
