Communication and commercial

Our story starts few years ago

2015 A student project

becomes an entrepreneurial project
during 2016-2018

and then, in 2019 the company is
created

Now, we have implemented a global process...

To create recycling ecosystem with public authorities

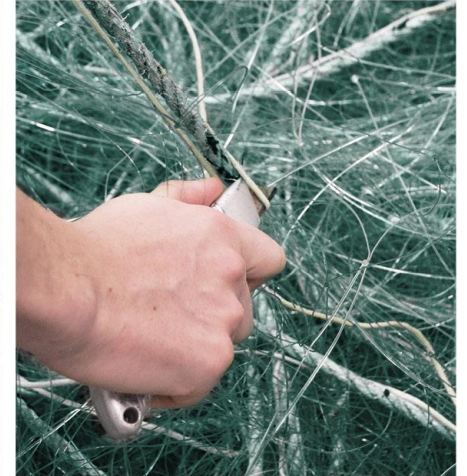

To setup organization with local actors

To collect waste

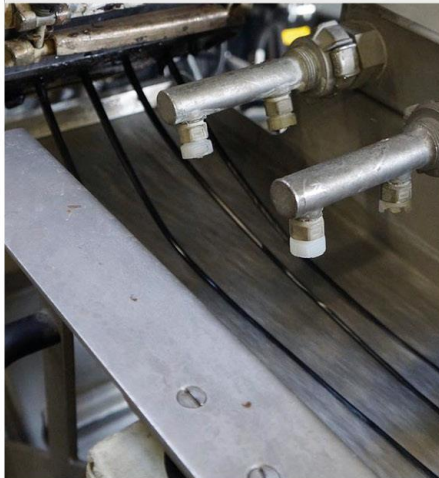

To sort waste

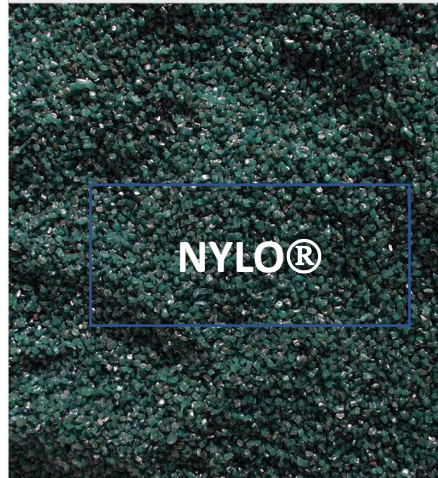

To grid waste

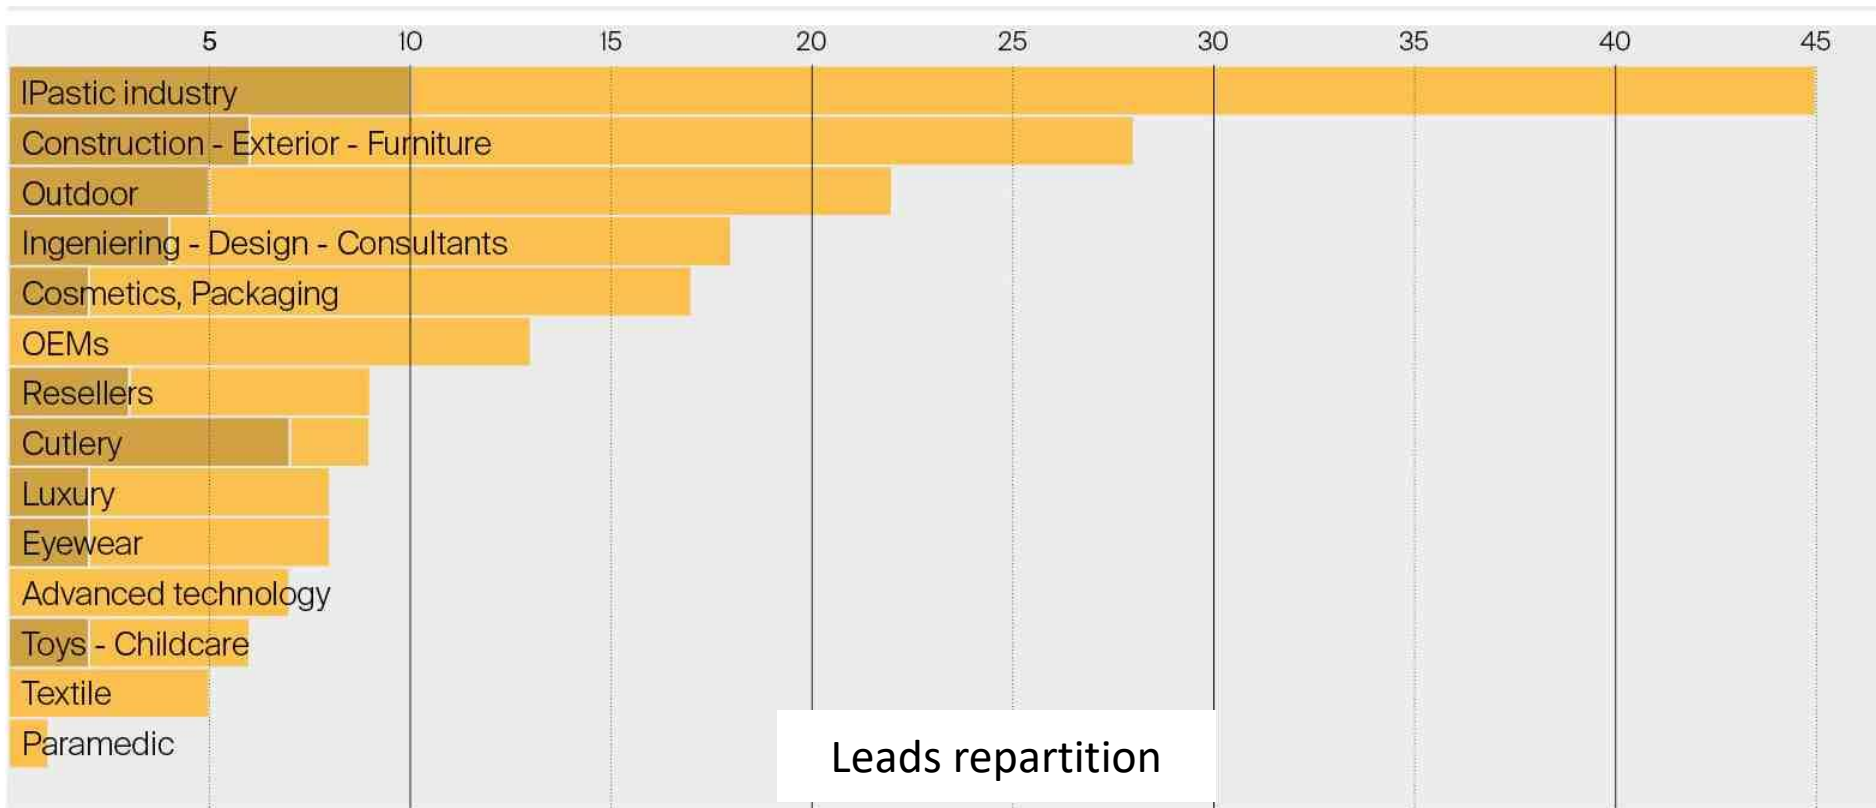

To granulate and produce material

To sell the new raw material

Who uses NYLO® ?

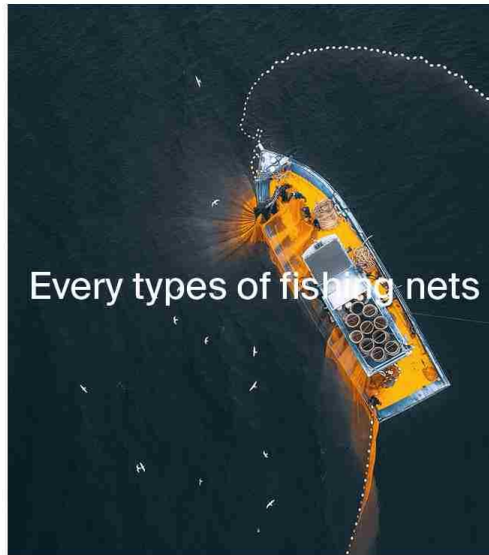

What will be the future of FIL&FAB

2022

25 tonnes

2025

535 tonnes

Many thanks !
